

Student Dormitories

Partner with us in completing the living accommodations for our Bnei David students

Bnei David is continuing to educate our wonderful Jewish youth in Torah and Emuna, toward shouldering responsibility in Israel – in the security forces, in education and in the public sector.

The 2015-2016 academic year began with record enrollment of 600 students in all our programs, and 500 of these students are slated to live in the dorms. With Hashem's help and the generosity of our friends and loyal supporters, our batei midrash can now accommodate many more students, but the dorms do not have enough rooms. As a temporary solution, this year we rented several apartments and caravans.

The central and southern wings of the main dorm building were completed a few years ago, and we recently began construction on the northern wing, which will house 72 students in 6 apartments of two bedrooms each, washrooms, showers and a common room.

The floor of the building has already been poured, as well as the supporting pillars for the first floor. Our goal is to complete this wing of the dorm and dedicate it by the beginning of the next academic year, so that all of our students will be housed in Bnei David residential buildings.

We are currently raising funds for this project and have found a main partner who has agreed to match the donations of all the other donors.

Dedication options

- The naming of the entire dorm complex (224 beds) **\$ 1,000,000**
- The naming of the northern wing (72 beds) **\$ 500,000**
- A suite of rooms (12 beds) **\$ 80,000**
- One bedroom (6 beds) **\$ 40,000**

Your support will make it possible for our students to have a permanent place to sleep after their long, demanding days of studies.

We would be very grateful for your partnership in this important project.
